

## Syllabus for CS410 Software Engineering

**Real Projects. Real Impact. Real \$kills.**

CS410 is a project-based course that introduces all aspects of the software development process. Together with real-world clients, you will learn to create high-quality software from initial specification to final validation. This course also includes advanced topics such as Docker containers, Cython wrapping, applied Deep Learning, and agile development methods. After successful completion of this course, you will be a hot ticket in the eyes of any engineering recruiter.

### We will learn and use:

- The Software Development Life Cycle (Requirements, Design, Implementation, Verification, Maintenance)
- Prototyping, Scrum, Agile, DevOps
- UML Modeling
- Python and C++ (w/ Cython)
- Docker Containers / Kubernetes
- Applied Deep Learning with PyTorch
- Github / git and Overleaf /  $\text{\LaTeX}$

### Teaching Staff

Instructor: Daniel Haehn  
Teaching Assistant: Loraine Franke  
Contact: [staff@cs410.net](mailto:staff@cs410.net)

### Lectures

Mondays, Wednesdays, Fridays  
11:00-11:50pm  
Wheatley Hall W02-0158

### Office Hours

Mondays and Fridays  
12:30-2:00pm and by request  
McCormack Hall 03-212

### Questions and Concerns

Please direct questions and concerns of any kind (now and during the semester) to the teaching staff in person or at [staff@cs410.net](mailto:staff@cs410.net).

## Course Structure

34 Lectures

### Project (80% of final grade)

Team Selection (5% of final grade)

Proposal (Requirements, Specification, and Design) (20% of final grade)

Implementation, Deployment, and Testing (25% of final grade)

Project Presentation (10% of final grade)

Final Project Documentation (20% of final grade)

### Participation (in-class, in-office, and as part of blackboard discussions, 20% of final grade)

No assignments

No exams

We will have **multiple guest lectures** from experienced software engineers.

## Final Grade

The weighted scores from above will result in a final grade as follows:

|               |              |
|---------------|--------------|
| $\geq 90 = A$ | 69-66 = C    |
| 89-86 = A-    | 65-62 = C-   |
| 85-82 = B+    | 61-58 = D+   |
| 81-78 = B     | 57-54 = D    |
| 77-74 = B-    | 53-50 = D-   |
| 73-70 = C+    | below 50 = F |

## Interactive Lectures (Bring your Laptop!)

Lectures will include interactive components. Please bring your laptop. If you do not have a laptop, please contact the teaching staff at [staff@cs410.net](mailto:staff@cs410.net).

## Project Milestones and Late Submissions

All project milestones (Team Selection, Project Proposal, Revised Project Proposal, Final Project Documentation) are due at 11:59pm on the specified day. Late submissions will result in score reductions of 1% per late hour.

## Participation

Class attendance and participation, as well as posts in the online discussion forum, count towards your grade. Please skip at most 4 classes and contribute at least once to every official discussion topic, if you want a 100% participation score.

## Collaboration Policy

You are allowed and encouraged to collaborate with anybody. However, please make sure to give proper credit. For instance, if your friend helps you with your report or you copied code from another source, you must acknowledge their name in your code and the project documentation.

## Open Source License and Proprietary Code

The course material is publicly available under the MIT license (<https://opensource.org/licenses/MIT>). Some projects might include proprietary knowledge and code or require a signed non-disclosure agreement (NDA).

## Readings

The course material is based on the following books:

Limited copies of all books are available through the teaching staff. While the books are great, **you do not need to purchase them**—the most up-to-date information is available online.

## Disability Accommodations

If you have a disability and feel you will need accommodation to complete course requirements, please contact the Ross Center for Disability Services at 617.287.7430.

## Other Policies

We follow the Academic Policies of the Office of the Registrar.

See [https://www.umb.edu/registrar/academic\\_policies](https://www.umb.edu/registrar/academic_policies) or contact [staff@cs410.net](mailto:staff@cs410.net) for questions.

## Timeline

| Date       | Lecture |  | Due at 11:59pm              |
|------------|---------|--|-----------------------------|
| 01/27/2020 | M       | 01 Introduction  |                             |
| 01/29/2020 | W       | 02 The Software Development Cycle                              |                             |
| 01/31/2020 | F       | 03 Hands-on Day! (Environment)                                 |                             |
| 02/03/2020 | M       | 04 Requirements and Specifications                             |                             |
| 02/05/2020 | W       | 05 Requirements and Specifications II                          |                             |
| 02/07/2020 | F       | 06 Project Presentations                                       |                             |
| 02/10/2020 | M       | 07 Design: Architecture  |                             |
| 02/12/2020 | W       | 08 Guest Lecture: Kristen Laird (Microsoft)                    |                             |
| 02/14/2020 | F       | 09 Hands-on Day! (UML)   |                             |
| 02/17/2020 | M       | No class (President's Day)                                     |                             |
| 02/19/2020 | W       | 10 Design: Modularity  |                             |
| 02/21/2020 | F       | 11 Hands-on Day! (Overleaf/Project Proposal)                   | Team Selection              |
| 02/24/2020 | M       | No class: Project Proposal Work I                              |                             |
| 02/26/2020 | W       | No class: Project Proposal Work II                             |                             |
| 02/28/2020 | F       | No class: Project Proposal Work III                            | Project Proposal            |
| 03/02/2020 | M       | 12 Guest Lecture: Nam Wook Kim (Boston College)                |                             |
| 03/04/2020 | W       | 13 Implementation  |                             |
| 03/06/2020 | F       | 14 Hands-on Day! (C++ Basics)                                  |                             |
| 03/09/2020 | M       | 15 Implementation II   |                             |
| 03/11/2020 | W       | 16 Guest Lecture: Mike Chabot (DraftKings)                     |                             |
| 03/13/2020 | F       | 17 Hands-on Day! (C++ Functions and Classes)                   |                             |
| 03/16/2020 | M       | No class (Spring Break)  |                             |
| 03/18/2020 | W       | No class (Spring Break)  |                             |
| 03/20/2020 | F       | No class (Spring Break)  |                             |
| 03/23/2020 | M       | 18 DevOps and Deployment                                       |                             |
| 03/25/2020 | W       | 19 Guest Lecture: Rudolph Pienaar (Boston Children's Hospital) |                             |
| 03/27/2020 | F       | 20 Hands-on Day! (C++ Arrays and Vectors)                      | Revised Project Proposal    |
| 03/30/2020 | M       | 21 Deployment II   |                             |
| 04/01/2020 | W       | 22 Testing I   |                             |
| 04/03/2020 | F       | 23 Hands-on Day! (C++ Templates)                               |                             |
| 04/06/2020 | M       | 24 Software Development Models                                 |                             |
| 04/08/2020 | W       | 25 Testing II  |                             |
| 04/10/2020 | F       | 26 Hands-on Day! (C++ and Python with Cython!)                 |                             |
| 04/13/2020 | M       | 27 Applied Deep Learning                                       |                             |
| 04/15/2020 | W       | 28 Agile Programming and Scrum!                                |                             |
| 04/17/2020 | F       | 29 Hands-on Day! (Testing Frameworks)                          |                             |
| 04/20/2020 | M       | No class (Patriot's Day)                                       |                             |
| 04/22/2020 | W       | No class: Implementation Time                                  |                             |
| 04/24/2020 | F       | No class: Implementation Time                                  |                             |
| 04/27/2020 | M       | No class: Implementation Time                                  |                             |
| 04/29/2020 | W       | No class: Project Status Meeting                               |                             |
| 05/01/2020 | F       | No class: Implementation Time                                  |                             |
| 05/04/2020 | M       | 30 Project Presentations I                                     |                             |
| 05/06/2020 | W       | 31 Project Presentations II                                    |                             |
| 05/08/2020 | F       | 32 Project Presentations III                                   |                             |
| 05/11/2020 | M       | 33 Recap I   |                             |
| 05/13/2020 | W       | 34 Recap II  |                             |
| 05/15/2020 | F       | No class (Study Period)  |                             |
| 05/18/2019 | M       | No class / Office hours only                                   |                             |
| 05/20/2019 | W       | No class / Office hours only                                   |                             |
| 05/22/2019 | F       | No class / Office hours only                                   | Final Project Documentation |
